

THE CONTRACT WILL BE LET WITHOUT DELAY

One Thousand Men Will Soon be Working on the Lower Truckee Canal

Now it is known to an absolute certainty that the Lower Truckee canal will be built. As stated before by The Journal, this is a proposition undertaken by the government to place under irrigation a vast body of ground capable of supporting directly and indirectly sixty-five thousand people.

The Journal's authority for this positive statement is none other than State Hydrographer Taylor, who has charge of this huge enterprise. Mr. Taylor returned yesterday from Denver, where he was in consultation on the 28th with his colleagues in charge of the irrigation work by the government in other states.

They carefully reviewed the bids for the construction of the Lower Truckee canal, each of which approximate one million dollars.

The bids, or at least some of them, were found to be in accord with the plans and specifications and the hydrographers decided to let the contract at once.

This "at once" means a delay of about two weeks, for the documents must be prepared at Washington and receive the signatures of certain heads of departments. They will then be forwarded and the contract closed.

Mr. Taylor stated in interview yesterday that within a very few weeks after the contract is entered into, actual work would begin and be pressed forward with all possible diligence. The topography and climatic conditions of the country to be traversed by the canal are such that work can be carried on as well, if not better, in winter as in summer.

The contractors will employ probably one thousand men and a large number of horses. They will be kept steadily at work for many months and the great benefit to the country and the money paid

out will find its way to Reno. This city is to be the base of supplies and the scene of the transaction of the greater part of the business in connection with this vast undertaking.

The canals that are probably to be subsequently constructed will also cause business activity here, for this is the place where all the hydrographic office work is centered.

The people of Reno and of the entire state do not yet realize the magnitude of the government work and its ultimate effect upon this city and state. People generally consider the irrigation project a matter that lies in the dim distance, but it is a fact that the benefits that will be begun to be reaped within the next thirty days will be far reaching. As soon as the canal is finished the storage reservoir will be built. This will employ a thousand men also. In the meantime the land will be brought under irrigation from the canal's laterals direct and within eighteen months there will be farm houses dotted over a vast area that is now a sea of sand.

Already the Reno Chamber of Commerce is receiving inquiries from intending colonists. As soon as the work actually begins upon the canal the fact will be heralded in the papers throughout the United States and thousands of people will seek homes here.

Young Man Accused of Embezzlement Fails to Get Bail Money

A young man named Richardson, employed by the Verdi Lumber company, was arrested yesterday by Constable Wilson on the charge of having embezzled about \$300 from that company.

He had no intimate friends here and the amount of the bail, \$500, was not forthcoming. A brother in San Francisco was communicated with by telegraph, but no responses being received in the course of an hour or two, the young man was locked up.

HEADED THIS WAY

The Escaped Convicts Are Believed to be Coming to Nevada--The Militia Proved Useless

(Special to The Journal.)

SAN FRANCISCO, July 31.—The failure of the militia to accomplish anything has led Governor Pardee to recall the guardsmen from pursuit of the convicts. The guards, through drinking and petty jealousies, have become impotent in their efforts and part of the posse has been recalled and others, including Lieutenant Kipp, sent out to take their places. None of the convicts have been seen during the day, but they are known to be in the neighborhood of Georgetown and are believed to be trying to reach the Nevada line.

Upon receipt of the above dispatch The Journal warmed up the telephone lines. Chief of Police Leeper, Sheriff Hayes and Constable Wilson, heads of the trine Reno police force, were called up and all informed of the contents of the telegram.

Each stated that the men in their department were familiar with the descriptions of the escaped convicts and had studied their photographs.

If the escaped convicts, or any of them come this way, they will be apprehended as soon as they arrive. The general belief of the local officers is that the convicts are being herded this way by the hundreds of men in pursuit who hesitate to close in on them. There is no retreating back to the California foothills. The passes to the

north and south are guarded. Their only hope is Nevada, and Reno, being a town with a large floating population, doubtless appeals to the outlaws as a temporary refuge, from which they could drift out one by one on the eastbound trains.

The convicts are probably by this time in the summit mountains above Truckee. Reno may receive a visitation from a number of apparently harmless looking hoboes any day, perhaps today.

Officer Ferrel has called up the state prison and the bloodhounds he recently sold to the warden are ready to send down by train or private conveyance whenever needed. They might be of great assistance to the officers if the convicts should attempt to pass this vicinity in the open country.

SERIOUS WRECK

A Number of People Injured in Arizona

Special to The Journal: TUCSON, Ariz., July 31.—Superintendent C. C. Stroufe, Mrs. Stroufe and a number of other prominent railway men were injured in the wreck of a private car near Naco late tonight. Stroufe sustained a deep gash over his left ear and Mrs. Stroufe was partially paralyzed from an injury to her spine. Colonel Epes Randolph, president of the Cananea road, was injured about the foot and knee cap. E. A. McFarland, consulting engineer, was severely cut about the eyes.

Drink Ruined Him

Special to The Journal: YUBA CITY, Cal., July 31.—E. C. McPhetridge, auditor and recorder of Sutter county, was arrested today for falsifying county records. The amount of the shortage is not yet known. McPhetridge is a young man and his downfall is due to drink. He comes of a nice family.

Church Politics

Special to The Journal: ROME, July 31.—The conclave officially began today. The leading candidates for the Papacy are acknowledged to be Gotti, Vannutelli, Oreglia and Di Pietro.

TWO WERE KILLED

Two Hundred People Fall With a Collapsing Bridge

Special to The Journal: PORTLAND, Ore., July 31.—Lottie Cameron, aged 16, and Edward Shank, aged 13, were drowned in the collapse of a bridge over the Willamette at Morrison street today. Thousands were watching an armless man swimming and 200 people fell forty feet into the river. Scores were injured, but nearly all were rescued.

Fight Declared Off

Special to The Journal: SAN FRANCISCO, July 31.—The Britt and O'Keefe fight was declared off tonight because O'Keefe was nine pounds over weight. The money was returned to the great crowd at Maccharlie's Pavilion. No arrangements for the fight in the future have yet been made.

Principal Chosen

Special to The Journal: WINNEMUCCA, Nev., July 31.—Prof. W. L. Butler of Eureka was tonight chosen principal of the Winnemucca schools by the unanimous vote of the board of trustees. Prof. Butler is an educator of successful experience and comes highly recommended.

Oregon Town Destroyed

Special to The Journal: ALBANY, Ore., July 31.—The town of Halsey was almost destroyed by fire tonight. Only two of the business houses are left standing. The loss is \$70,000.

No Dull Times

A Journal reporter happened into a Reno bank yesterday to make a de-

posit, nit. He inquired of the cashier how the dull season was affecting financial transactions. The bank official looked at him in amazement.

"Dull season! Why, man, if you looked over our footings and drew conclusions therefrom you would write a prosperity story that would make every prater about dull times hunt his hole." Evidently this dull season bugaboo is all bosh. The crowds of shoppers tell a different story.

Will Start on Time

The Journal has been positively assured that the train for the Reno Wheelmen club picnic will leave Reno for Bowers mansion positively on time, at 8:35 sharp, tomorrow morning. There is no probability or even possibility that the V. & T. will hold the excursionists.

By the way, as seen elsewhere in this paper, the picnic promises to be a hummer, big crowd, good music, match shoot and swimming and other athletic contests.

Rev. Maynard Burkett arrived on No. 5 from Independence, Mo., and is staying at the Overland. Mr. Burkett will preach at the Congregational church for a time.

BADLY INJURED

A Man Falls From a Rapidly Moving Train at East Reno

George McMurray, a union barber who is well known in this city, was seriously injured yesterday afternoon at East Reno. He went out to the new town for a site for a barber shop and endeavored to board a rapidly moving train to return.

He had caught a car when his hold slipped and he fell, being dragged for some distance. One of his legs was crushed and his back is injured, how seriously has not yet been determined. The injured man was brought to town on a work train.

The Reno Squadron

Admiral Evans leaves tonight to witness the bicycle race in Sacramento. He has turned the squadron over to Commodore Cummings. Purser Block feels worried, as he knows that the Admiral will bet on the wrong team as usual and make a requisition on him for all the money to the credit of the fleet.

A Jolly Smoker

Last evening at the conclusion of its regular business the Camp of Woodmen of the World enjoyed a good old-fashioned smoker. The pipe of peace and other things were passed around and all went merry as a whole bunch of wedding bells.

Bert Rogers has returned from the Pleasanton track, bringing with him A. L. Mason's speedy race horse.

It Is Hard Work to Collect the Licences, Then Give Half the Money Away

The City of Reno will keep every cent of the money collected for licenses, that is, if the courts are willing and the city has able counsel to press the matter before the highest tribunal in the state and has plenty of evidence, including the wording of the charter to back up the position.

The charter says emphatically that "ALL the money collected shall be turned into the general fund of the city."

The County of Washoe wants a quarter of it and the State of Nevada would like to have another slice of equal extent, but City Attorney Williams and Special Counsel Wren object.

They have even gone so far as to mandamus City and County Treasurer Boyd to turn never a cent of the money collected over to either the county or state. He won't either.

The mandamus matter will come up before the Supreme Court on the 8th of this month, a week from today. In the meantime at least one-half of the money collected in the municipality is available for paying warrants and the other half will remain "in hook" until the Supreme Court decides.

There is considerable money coming into the treasury. Yesterday afternoon Chief Leeper turned over \$90 "dog money," and \$342.25 for other licenses. On the 27th he deposited the round sum of \$2000 and altogether has deposited over three thousand dollars since the city government got down to working order.

If the municipality is allowed to keep all this money it will put the city on a good financial footing and enable the construction of permanent improvements where they are badly needed. As to the demands of the state and county for half the license money, it would seem amusing, if not so serious, because the state and county will continue to derive their revenue.

"THE MAN WITH THE BRANDED HAND"

Twenty-Fifth Anniversary of the Death of the Man the Poet Whittier Immortalized.

Special to The Journal:

MUSKEGON, Mich., July 31.—Interesting ceremonies are to be held here tomorrow in commemoration of the twenty-fifth anniversary of the death of Jonathan Walker, immortalized by the poet Whittier as "The Man With the Branded Hand."

Jonathan Walker was born in Harwich, Mass., on 1799 and in early manhood took a great interest in the slavery question. In 1835 he formed a compact with Benjamin Lundy for the establishment of an escaped slave colony in Mexico. The men owned a small vessel, and with it they assisted the slaves to get away to a place of refuge. They followed the practice for several years, and Walker had many harrowing adventures during the time. He was finally captured in July, 1844, and tried before a court at Key West. He was convicted of slave stealing, and the judge sentenced him to pay a fine of \$4,200, suffer seven years in prison, stand in the pillory for one hour and to have the letters "S. S." burned in the palm of his right hand.

Walker paid the fine, stood in the pillory, the branding part of the sentence was carried out and the suffering man confined in jail. There he remained for nearly a year until released. In 1863 he came to Muskegon county, and settled on a beautiful spot near the lake, where he remained until the time of his death, which occurred April 30, 1878. On the first of the following August a handsome monument to his memory was erected in Evergreen Cemetery by Photius Fisk, a young United States naval chaplain, who had known the old man before his death and who had shared his views on the slavery question. The dedication of the granite shaft was made the occasion of a great gathering to pay tribute to the dead man. People assembled, not alone from the immediate vicinity, but from many parts of the country. On the face of the monument is a reproduction of the branded hand and the dates of Walker's birth and death.

To Test Anti-Rebate Law

Special to The Journal:

NORFOLK, Va., July 31.—Railroad and business circles are awaiting with keen interest the outcome of the arguments begun in the United States District Court here today in the application for a permanent injunction to restrain the Chesapeake and Ohio railroads from carrying coal or any other traffic at any greater or less rate than its published tariff rates and also to restrain the New Haven road from receiving any rebate or advantage therefrom. The case is the first to arise under that section of the anti-rebate law, which gives the interstate commission power to ask for an injunction to restrain a railroad from charging less than its posted freight rates.

The action in the present case is based on the original complaint of W. C. Bullitt, a Philadelphia coal dealer, and the testimony given by President Stevens, of the Chesapeake and Ohio, shows that a contract was made five years ago by his road to deliver at New Haven 2,000,000 tons of New River coal at the rate of 400,000 tons a year, for \$2.75 a ton. When the contract expired in April last, 50,000 tons remained undelivered and a new contract was made for the delivery of that amount at the old rate.

After paying for the coal, its transportation from Newport News to New Haven by sea and for discharging it from the vessel, there remained for the railroad company only 28 cents a ton as freight from the Kanawha district of West Virginia to Newport News, whereas the published rate of the Chesapeake and Ohio for that haul is \$1.45 a ton. It is this apparent rebate or discrimination of \$1.17 a ton in favor of the New Haven road and against others that forms the basis of the complaint.

On the Eve of the Papal Conclave.

Special to The Journal:

ROME, July 31.—Arrangements for the conclave were completed in the minutest detail today and when the three score of Cardinals repair to their cells this evening it will be to remain in strictest seclusion until the successor of Leo XIII in the Chair of St. Peter has been chosen. Speculation now is confined to the subject of the probable duration of the conclave and opinion inclines to a period of three or four days, though it is freely admitted that it is a guess pure and simple. Should a decision not be reached by the Cardinals in three days it may be taken for granted almost that those now regarded as leading candidates have been excluded from the race and that

a dark horse will be chosen. The army of newspaper correspondents here from all parts of the world are busily engaged in devising means for obtaining early information, but it appears certain from the arrangements that have been made by the Vatican authorities that no authentic information will be forthcoming until the official bulletin announcing the result is issued.

Catholic Societies to Meet.

Special to The Journal:

ATLANTIC CITY, N. J., July 31.—Distinguished Catholic churchmen and laymen are filling the hotels in anticipation of the opening tomorrow of the annual meeting of the American Federation of Catholic Societies. The federation movement, which was inaugurated but a few years ago by Bishop McPaul of Trenton, has made rapid strides recently and the result will be an extraordinarily large attendance at the coming meeting. Nearly every Catholic society of prominence in the entire country has been taken into the fold and all will be well represented. In addition to the regular delegates those present will include a number of eminent prelates who have accepted invitations to address the meeting.

Milling at Tonopah

The Tonopah Bonanza says: "The Kinkaid mill at Butler's wells this week made a sample run on five tons of ore from the claims of the Tonopah-Gold Mountain company at Gold Mountain, and from the figures furnished by Secretary Runge the test was satisfactory in every sense. The total amount of ore furnished was five tons, and a battery sample of it gave returns of \$6 to the ton. The amount of gold plated was thirteen ounces, and the concentrates saved weighed 450 pounds and are valued at \$500 per ton. It is estimated that both in amalgam and concentrates 90 per cent of the values were saved."

Hotel Changes Hands

Con Ahern will relinquish his lease of the hotel part of the International this evening and Charley Hanak will take charge until the middle of August, when Mrs. Hanak, owner of the property, will arrive here to arrange for the future management. Mr. Ahern will probably continue in charge of the saloon part of the premises until other arrangements are effected.—Report.

IN MEMORY OF ERICSSON

Hundredth Anniversary of the Birth of the Famous Builder of the Monitor

Special to The Journal:

NEW YORK, July 31.—One hundred years ago today, in a little town in far-off Sweden, there was born one who was destined to revolutionize the methods of naval construction and naval warfare and, incidentally to aid in no small measure in the preservation of the United States of America—the land of his adoption. John Ericsson was his name and the "monitor" his monument.

The anniversary of Ericsson's birth has for a number of years been a festival day among the Swedish citizens of the United States, but this year, which is the centenary, is to be marked by celebration on a scale more than usually elaborate and widespread. Preparations for the observance have been going forward for more than a year. In New Jersey, Illinois, Kansas, Minnesota and other states where large Swedish settlements exist the observance of the day will be quite general. The centenary will also result in the erection of several statues and other monuments to the great Swedish engineer and inventor. For the past ten years a heroic monument to the memory of Ericsson has occupied a conspicuous position in Battery Park, this city, but the Swedish residents have lately come to the conclusion that the statue was not satisfactory and have decided to replace it with one regarded as more suitable. The new statue has been placed near the site of the old one and will be unveiled next week with elaborate ceremony. Minneapolis is also to pay tribute to the memory of the distinguished Swede by erecting a monument designed by Gustav Lindberg, an eminent sculptor of Stockholm.

In addition to these material tributes a movement is on foot to further preserve the memory and fame of Captain Ericsson by establishing the custom among the Swedes of America of observing the anniversary of his birth as a national holiday in the same way that the Norwegians celebrate the anniversary of the adoption of their constitution and the French the anniversary of the fall of the Bastille.

TAKEN TO INSANE ASYLUM

WILLIAM WATERS IS
MENTALLY DERANGED

The Sad Story of One of the Best
Known Young Men in This City—
Victim of An Accident

The case of William Waters is a sad one. One year and a half ago he was a hearty, jovial man, in full possession of all his faculties. He was employed as fireman by the Southern Pacific Company and was fireman on the Truckee swing, a train that made passenger time and required able, level-headed men in the engine cab.

Yesterday, a wreck of his former self, he was taken to the insane asylum, where he may be compelled to remain for the balance of his days.

Eighteen months ago "Bill" Waters fell from his train and received spinal injuries that disabled him from work. About that time his house burned and he lost all his personal belongings, even his pet dog, that was his constant companion, was burned.

This loss and the effects of his accident preyed upon his mind and he soon became as helpless mentally as he was physically. All this time he was kindly cared for by friends. The Knights of Pythias, of which order he is a member, looked after him faithfully and say that he suffered for lack none of the necessities of life.

The poor fellow was examined yesterday in the District Court before a committee consisting of Judge Murphy, District Attorney Pike and Drs. Woods and Gibson.

Wants a Correction

A. Klingman in somewhat irate mood called at The Journal office yesterday and asked that this paper make a correction of its statement in the latest issue to the effect that Klingman had been arrested for writing anonymous letters. The correction is cheerfully made. He says he used a postal card instead of a sealed mislusive. This saved one cent's postage, but made the writer liable to heavier penalties than if he had used a sealed enclosure. A man may send a bill to another in a letter, but if he utilizes a postal card for dunning he is liable to all sorts of things at the hands of outraged justice. The Journal cheerfully corrects the article in yesterday's paper, even though the disgust of the writer for a self-confessed author of unsigned, abusive communications passes understanding. There once was a yellow cow owned by a writer of anonymous letters. "When the dog found it out the disgrace caused him to pine away and die."

This simple filter can be used anywhere without hydrant pressure. The miners' and poor man's friend, the rich man's necessity. Wanted agents everywhere, to make money, Self seller, large profits. Harry Plummer, manager, for a few days at Clarendon hotel, Reno, Nevada.

Officers Installed

At a Meeting of the Rathbone Sisters after two initiations the following officers were installed by Margaret Dann, the commissioned installing officer:

Harriet E. Williams, Most Excellent Chief, Bertha Doane, Excellent Senior; Jennie Kerr, Excellent Junior; Ivan Sessions, manager; Gertrude Bonham, Mistress of Records and Correspondence; Dora Zeigler, Mistress Finance; Cora Stoddard, Protector of the Temple; Carrie Sessions, Guard of the Outer Temple; Mattie Summerfield, Past Chief.

Its Last Visit

Yesterday was probably the last time that the time honored institution, the Southern Pacific pay car, is to be seen in Reno. It rattled into town and distributed a large wad of money and made business very active during the evening. The pay car was to have been taken off the road last month, but the fact that there are so many construction outfits working at a distance from town, caused it to be sent over the road again. After this month all employees of the road will be paid by check.

Haley, of Reno, who for some fifteen months past has been the Nevada City reporter of the Grass Valley Union, will on Monday next go to Truckee to assume the editorship and business management of the Semi-Weekly Republican. "Won't You Please Come Home?"

Proprietor Bailey of the Louvre had been subpoenaed to serve on the Justice Court jury yesterday, but, being busy, he forgot all about the matter until too late. His Honor is believed to have issued a bench warrant that will be served this morning. If this is the case Mrs. B. will probably be heard singing for the next thirty days: "Won't You Please Come Home, Bill Bailey?"

ARE GOING AHEAD

Washoe Power and Development Com-
pany Begins Work

Surveyors have been put in the field by the Washoe Power and Development company of this city. The company plans to establish competitive water works and power plant here. Their works will be located on the Truckee eight miles west of Reno. There is a water power of 1500 horses to be generated by a fall of 43 feet, leading the entire river a distance of 200 rods.

The entire ditch and flume line is on property owned by the company and there are no other water rights interfered with. An officer of the company informed The Journal yesterday that the money needed for the construction of the plant is all on hand and that the work will be vigorously pushed forward to completion.

INTERTOWN SHOOT

Virginia and Reno Gun Clubs Will
Compete at the Wheelmen Picnic

The Reno Wheelmen club picnic at Bowers mansion takes place tomorrow and will doubtless be largely attended. One of the attractions of the day will be the competitive shoot by the Reno and Virginia City gun clubs. AN EASTERN OPINION

THERE is a great deal of truth and wisdom in the remarks of Mr. Bryan, quoted below, and there is also a whole lot of good sense in the comments of the Montpelier (Vt.) Argus and Patriot, which we give in the same connection, and which will commend themselves to the approbation of Democrats who desire such harmony in the party as will insure a successful presidential campaign next fall. We feel confident that no man who bolted the ticket in 1896 and 1900, or at either time, will be endorsed by the Democratic national convention, and also believe with the Vermont paper that Mr. Cleveland is an impossibility even if he appeared as a candidate, which we have good reason to predict he will not be. This is what Mr. Bryan and the Argus say:

"In his speech at Chicago Saturday on 'Democratic Ideals' Bryan again took the opportunity to attack Cleveland and said with great bitterness:

"The odium which Mr. Cleveland's second administration brought upon the party which elected him did more to defeat the party than any one plank of the Chicago platform, or even than all the planks that were most criticized. But for the repudiation of the administration it would have been impossible to make any campaign at all, and even the repudiation, thorough and complete as it was, could not completely disinfest that party.

"The greatest menace the party has to meet today is not the responsibility but the probability of the party's return to the position that it occupied from 1895 to 1896. This danger is not so imminent as the corporation-controlled papers make it appear; but, in so far as it threatens, it paralyzes the energies of the party and nullifies its promises. Such a return would indicate a degradation of the party's ideals and a perversion of its purposes."

"Some people believe this. Others do not. Whether or not it is true, what is to be gained by such attacks? This matter has all been discussed for eight years. If a majority of the Democratic party believe with Mr. Bryan they will keep Cleveland and his friends from dominating the next national convention. If they do not believe it we doubt if they nominate Mr. Cleveland, though they may take up some conservative man.

Mr. Bryan is entitled to some consideration as the nominal leader of the party, its candidate in the past two campaigns. He is not to be restrained in his utterances except by his own appreciation of good taste and his desire to act for the good of the party.

"It surely cannot be expected that conservative members of the party will have and desire to remain if they are forced by radical action. If, for the sake of insistence on issues now no longer of consequence, the party is prevented from winning a victory next year, they will seek a party where issued of present moment may be advocated with hope of success. 'This a prediction, not a threat.'"

HARD TO UNDERSTAND

LYNCHINGS are among the common occurrences of the country at present. Negroes are no longer the sole victims of mob violence, for in Kentucky a white man has been hanged by a mob. The crime for which he was undergoing life imprisonment is not regarded as very serious in Kentucky. He had playfully shot a man while under the influence of liquor. But it happened that public feeling had always been strong against the man and a mob of twenty men forced open the jail, took him out, and hanged him to a tree. It is not so stated in the reports but we believe the mob must have been made up of relatives of the man who was killed, and who were seeking vengeance. Unless there was some personal reason for interference in such a case we cannot understand why a Kentucky mob should have done so. Shooting is a gentlemanly sport down there and the efforts of the better class, as we have seen in a recent case, are more likely to be directed towards shielding than punishing the guilty parties.

SIGN OF THE MILLENNIUM

THE signs of the near approach of the millennium are multiplying. The latest and most convincing proof of its coming is that an Ohio congressman has resigned—not to accept a better office, as is frequently done, but to give up the office holding habit and return to private life. Gill is this unique Buckeye statesman's name, and it should be remembered. He's one out of about 5,000,000. As Republican statesmen go, Mr. Gill was all right. He has bought a newspaper to be run as a recreation. We hope that he will be successful. Contemplating Mr. Gill's resignation, who can say that the Boston boy who declared that he was seeking the unattainable was far out of the way?

JUSTICE BREWER, of the United States supreme court, states an undeniable fact when he says that every man who participates in a lynching is a murderer. There is no blinking the fact. Whatever may be the excuse for the lynching, however great the provocation, the fact remains that it is killing unauthorized by law and as such is nothing but murder.

AN exchange says that eastern college students are proving a nuisance in the Kansas wheat fields. The heat knocks them out and the work is too severe. The life of the western farmer at this time is more strenuous than they supposed. Working all day in a wheat field is different from playing a game of foot ball or base ball.

SHOULD BE TESTED

THE Carson Appeal publishes an able and exhaustive article urging the testing of the Constitutionality of the Eight-hour law in the Supreme court. The reasons given by the Appeal in support of its proposition are convincing and in fact irrefutable. The Journal most heartily endorses the position of its Carson contemporary in its assumption that it is the bounden duty of the Democratic and Silver parties to carry the matter to the highest judicial tribunal of the State and not permit it to rest upon the decision of a District Judge. The Eight-hour platform clause was unanimously endorsed by the two State conventions and every man holding a State office was elected upon those platforms and it would be a gross imposition upon the laboring men of the State to allow that most important portion to be turned down without taking every possible means to insure their sustenance, and it is plainly the duty of the Democratic and Silver party State Central committees to act in unison with the labor unions in bringing the matter to a final decision. The Appeal correctly argues that the question is purely a legal one and that the merits or demerits of the law itself has nothing whatever to do with the basing of a judicial decision upon it, that being a matter exclusively for legislative action. The Utah Supreme court decided in the affirmative upon the same law that was enacted in Nevada, and although the constitutions of the two States vary somewhat in that connection, the Utah court decided that outside of the constitutional clause which affirmatively permitted such legislation, the law was a legitimate exercise of the power of police regulation and for that reason alone, should be upheld. As the Utah decision was sustained by the Supreme court of the United States, there is but little cause to doubt the validity of the Nevada law, or that the Nevada Supreme court's decision will not be adverse to that rendered by Judge Murphy at Dayton.

equipment.

Lawrence Murphy, former treasur-
er of the Journeymen's Stone-Cutters'
Union, who was arrested last Decem-
ber charged with embezzling \$12,000
from the organization and convicted
last Monday of grand larceny, was yester-
day sentenced to five years and six
months in the New York state peni-
tentiary.

Mad Even at Himself
Bentley, the convict who broke jail
here and tried to kill Sheriff Hayes
when he did so, is proving the most
intractable prisoner in the state pen.
He is now in the dark cell for refusing
to work in the quarry. When he was
put in he was offered half a loaf of
bread and a bucket of water, but he
surly refused them, evidently for-
getting that they might come in handy.
Twenty-four hours made him very
willing to accept the half loaf of
bread that had been offered him be-
fore.

Lots of Renoites There
The Carson pen seems to be the
happy home of a large number of
Washoe people. These convicts with
the exception of two or three, drifted
into town, committed some "overt act,"
and were journeying prisonward be-
fore they could get their second wind.
Deputy Sheriff Sharkey, who took D.
Allen to the prison yesterday, met a
number of convicts that he had escort-
ed over the road.

Hero and Man of Business
Business and patriotism took Julius
Schwarzschild, the well known hide
buyer, across the line into the wilds
of California yesterday. He was arm-
ed with a 22-calibre rifle and a box
of 38-calibre cartridges. He will be in
at the death when the convicts are
run to cover and if the latter are not
too badly bullet ridden, will probably
be able to do a good stroke of busi-
ness.

To Argue a Case
Hon. W. E. F. Deal came down
from Tahoe Tavern last evening and
will go on to Carson in the morning to
argue the case of Occidental Mining
Company vs. Comstock Tunnel Com-
pany, which comes up in the Federal
Court today. Judge Deal says that
Judge Hawley will decide the three
Tonopah mining cases Monday.

Scorched By Acid
The young daughter of R. J. Read,
residing at 205 Scott street, met with
a painful mishap yesterday morning.
In some manner she got hold of a
bottle containing carbolic acid, and
pulled the cork to investigate. As a
result she was painfully burned on
the face, neck and hands.

Enjoyed His Outing
J. Allenbach came in last evening
from Grizzley, where he spent the
past month hunting and fishing. He
says he caught at least a thousand
trout and bagged all kinds of large and
small game in this paradise for sports-
men.

Something About the Finances of Reno

(Continued from Page 1)

ues from the same established sources
as before.

By the way, the collection of these
licenses is not the work of an idle af-
ternoon. Chief Leeper, upon whom
the burden falls, is liable to have to
defend a divorce suit on the grounds
of desertion. He would hardly recog-
nize his wife and children if he saw
them on the street so constantly is he
kept down town with the license col-
lections in addition to his duties as
chief of police and chief of the fire de-
partment.

Chief Leeper's burdens in the three
capacities are so great that the ap-
pointment of a license collector will
soon become necessary.

Now, as to the collection of licenses,
there are a number of business people
in Reno who have thus far ignored the
ordinance. They either refuse to pay
licenses or have neglected to do so.
They will discover before long that
the ordinance will be enforced to the
letter and by process of law. So says
Chief Leeper and so say the other city
officials.

Cholera Infantum.
This has long been regarded as one
of the most dangerous and fatal dis-
eases to which infants are subject.
It can be cured, however, when prop-
erly treated. All that is necessary is

and Diarrhoea Remedy and Castor Oil,
as directed with each bottle, and a cure
is certain. For sale by S. J. Hodgkin-

Two carloads of ore from the Con. Cal. & Va. will be shipped to Seiby & Co. today.

Drill hole No. 5 on the Brunswick lode had attained a depth of 80 feet yesterday afternoon.

Three mining claims in Lone Mountain district, Esmeralda county, were recently sold for \$1500.

John Houss, a veteran Lincoln county prospector, died recently at St. Thomas. He left an estate valued at \$30,000.

Humboldt county now has ten mining companies operating within its borders, where less than one year ago mining was practically at a standstill.—Standard.

Julius Goldsmith, general manager of the Tennenbaum turquoise mines, has arrived in Manvel and will proceed to the mines with a force of miners and resume work.

John H. Murphy, attorney for the Western Federation of Miners, arrived yesterday on business connected with the trial of William Boyce of Silver City, in which a test of the eight-hour law will be made.—Enterprise.

Charles Butters has filed the requisite papers with the County Recorder giving notice of a ditch-right to be known as the Butters flume to extend from the Butters Cyanide plant to the Julia mine, with numerous branches and sprus.

D. R. Hawkins of Genoa and a number of Reno men, interested in the Mammoth mine back of Carter's Station, are sinking a shaft on the ledge. The ledge is six feet wide and assays averaging \$50 in gold and silver have been obtained.—Courier.

Yesterday the State Agency and Transfer Syndicate filed with the Secretary of State articles of incorporation of the Brunswick Consolidated Mining Company. The company is incorporated for \$150,000 and is composed of James Yerington, H. R. Logan, Geo. T. Mills, R. K. Colcord and A. M. Ardery. This city is named as the principal place of business.—Appeal.

Articles of incorporation have been filed with the county clerk of the Longfellow Gold Mining and Milling Company. The purpose of the company is to mine and mill the precious metals in Douglas county. The principal place of business is Gardnerville. Capital stock, \$1,000,000, divided into shares of the par value of \$1. B. W. Carman, M. E. Carman and Frank Everett are the incorporators.—Record.

Clay Peters has ordered a mill of 10-ton capacity to work the high-grade ore from the property recently acquired by him at Ellsworth, about ten miles west of Berlin and forty-five miles from Luning. The shaft has reached a depth of 50 feet and a ledge of from 1 to 2 feet wide and carrying ore averaging from \$100 to \$176 a ton in gold has been opened up. The values are remarkably uniform, and Mr. Peters estimates that he has at least \$30,000 in sight, says the Miner.

Mine May Resume

A report was current on the street today to the effect that work was to be resumed at the North Rapidan mine in Como tomorrow, says the Chronicle, and a crew of six men who were engaged by Manager Boyle left this morning for Como. The truth of the report could not be ascertained, but as all the men who left this morning are Miners' Union men, the probability of the company agreeing to pay the union wages of \$4 is very likely, as the Silver City Union will insist on all men joining that union.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by S. J. Hodgkinson, Druggist.

Night Was Her Error.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of any sleep. I had consumption so bad Alexandria, Ind., "and could hardly get that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 35 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at S. J. Hodgkinson's drug store.

Hodgkinson Will Buy It Back.

It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

The horses ran down Virginia street to the corner of Second, where they collided with a telephone pole. The horses were uninjured, but the dray and harness suffered. The team collided with a vehicle en route, but did no damage. It was a lucky runaway inasmuch as Virginia street was almost blocked by vehicles.

Sent to McKenzie

The benefit to Alex McKenzie netted the considerable sum of \$162.25. This amount was placed in the Bank of Nevada to his credit and the certificate of deposit sent to the Clan. Mr. McKenzie is doing very well at the Southern Pacific hospital and will soon be able to return to Reno, although he will be incapacitated for some time and will be unable to ride any more this season.

ASSEMBLY

Third Convention for the United States Is Now in Session in Atlantic City and a Splendid Program Is in Prospect for It

Special to The Journal]
ATLANTIC CITY, N. J., Aug. 1.—The large and representative character of the attendance at the opening today of the third national convention of the American Federation of Catholic Societies was such as to give pleasure to Bishop McFaul of Trenton and the other eminent members of the church who have labored incessantly for several years to bring about a working union among the great Catholic organizations of America. When the convention was formally opened this morning there were present accredited delegates from state federations throughout the country. Ohio, where the movement has gained the strongest foothold, was represented by several hundred delegates, while Indiana, Wisconsin, Pennsylvania, New Jersey and numerous other states had members in attendance. In addition to these delegations there were present more than two-score archbishops and bishops of the church and the representative character of the gathering was further accentuated by the presence of delegates from several Indian tribes and Porto Rican societies and from the Centro-Cattolico of the Philippines.

As a preliminary to the convention the delegates marched in a body to St. Nicholas church, where solemn pontifical services were held. Afterward the business sessions were begun in the Morris Guards armory, with President Thomas B. Minahan of Columbus, O., presiding.

The roll call by Secretary Anthony Matre of Cincinnati showed that delegates were in attendance, representing the Catholic Order of Foresters, Ancient Order of Hibernians, Catholic Knights of America, Catholic Mutual Benevolent association, German Central Verein, Catholic Knights and Ladies of America, Knights of St. John, Young Men's Institute, National Total Abstinence Union, Young Men's Catholic Union, Catholic Benevolent Legion, Irish Catholic Benevolent Union, Knights of Father Matthew, Polish, French and Bohemian federations, the state federations of Ohio, Indiana, New Jersey, Kentucky, Vermont, Louisiana, Georgia, Tennessee, Pennsylvania and many other county federations, state leagues and other organizations scattered throughout the country.

Tomorrow morning there will be a grand pontifical mass in St. Nicholas church. Another feature will be solemn memorial services for the late Pope, at which addresses will be delivered by a number of the highest prelates in the United States. The business sessions, which will continue until next Wednesday, will be devoted largely to discussions tending to strengthen the federation movement.

Ericsson Statue Unveiling

Special to The Journal]
NEW YORK, Aug. 1.—The new statue of John Ericsson in Battery Park was unveiled today with interesting ceremonies. The unveiling was preceded by a mammoth parade of the Swedish societies of New York, Long Island and New Jersey. A corps of naval veterans and several detachments from the United States Marine Corps also participated in the parade. Arriving at Battery Park Mayor Low delivered the address of welcome and the statue was unveiled by Miss Rachel Hartley, daughter of Jonathan Scott Hartley, designer of the statue. The new statue replaces the old one of the great Swedish inventor which has occupied a position in Battery Park near the emigrant office for the past ten years. The new statue stands nearer the center of the park and in a more conspicuous position.

Circuit Attorney Joseph W. Folk, Who Prosecuted the Boodlers, Wants the People to Reward Him by Making Him Governor

Special to The Journal]
ST. LOUIS, Mo., Aug. 1.—The active campaign of Circuit Attorney Joseph W. Folk, who has attained national prominence by his prosecution of alleged boodlers, for the democratic nomination for governor of Missouri begins today at New Florence, Montgomery county, where he is scheduled to address an Old Settlers' reunion. Former Governor Lon V. Stephens has taken charge of Mr. Folk's campaign and has arranged to have the circuit attorney speak in the chief cities and towns of northern Missouri during the next few weeks. Later the campaign south of the Missouri river will be taken up and Mr. Folk will be heard at Sedalia, Carthage, Springfield and other points. The managers of the Folk campaign express themselves as well pleased with the outlook and especially in regard to the friendly attitude adopted by the democratic press of the state.

Premier Baroness of England

Special to The Journal]
LONDON, Aug. 1.—Little Baroness Beaumont, who is one of the eleven now living who are peeresses in their own right, will be nine years old tomorrow and preparations have been made to celebrate the event. The little baroness, who is a charming child, with brown hair and large blue eyes, may be designated the premier baroness of England, precedence being given according to the date of the creation of the title which they hold.

The Barony of Beaumont dates as far back as 1309, when it was conferred upon Henry of Beaumont, a grandson of John de Brienne, last King of Jerusalem, by Edward II. The little baroness succeeded to the title under very sad circumstances, her father, the late Baron Beaumont, having been accidentally killed while shooting.

Young Athletes to Go Abroad

Special to The Journal]
NEW YORK, Aug. 1.—The plan which has been in contemplation for several years looking to an international contest between schoolboy athletes of America and England seems at last likely to realization. R. S. Patterson, who has been chiefly instrumental in promoting the plan, sailed for England today and will endeavor to bring about a meeting next spring. Inasmuch as it will be out of the question for the English schoolboys to come to this country, it has been practically decided to take a team to England from this side. The team will probably be picked from among the boys making the best showing in the Greater New York meets, though it may be decided to give representation to other parts of the country.

Convenient Schedule

Supplement No. 5 to time table No. 24, of the Nevada-California-Oregon railway company will be in effect tomorrow. The change is a very important one.

This change gives to the travelers en route to points on the Sierra Valleys railway or reached thereby, a through train, starting from Reno at 8:30 a. m., arriving at Mohawk at 1:45 p. m., leaving Mohawk at 2:30 p. m. and arriving at Reno at 7:45 p. m., thus giving the merchants in Reno an opportunity to make a round trip in one day, and other travelers an opportunity to connect with all Southern Pacific trains at Reno.

EMPIRE

Attains to His Forty-First Birthday, Selects the Spot Where He Desires to be Buried and Permits Subjects to Celebrate

Special to The Journal]
LONDON, Aug. 1.—An interesting account has reached London of the recent visit of the Chinese emperor and the empress dowager to the imperial tombs, where the unhappy monarch, who, it may be mentioned in passing, will reach his thirty-first birthday tomorrow, selected the tomb in which he is to lie when his time comes. The correspondent describes the emperor as looking thin and sad and very shy, while the empress, though she is well along in the seventies, appeared full of life and energy. The correspondent adds: "If the native reports be true, there are times when the emperor can speak to the point, simpleton though he is supposed to be. On reaching the palace at Pao Ting-fu, which had been lavishly fitted up absolutely regardless of expense, the emperor called Yuan Shi Kai to his apartments and pointed out that he desired in his travels to see the condition of the people and learn their needs, so that imposing royal pageants were unnecessary."

ON CYCLING IN NEVADA

Carson and Reno Rode the First Fifty-Mile Relay Race

It may be news to many Renoites to know that the first fifty-mile relay race of which there is any record was ridden by the Carson and Reno teams. The following from the Carson News is a bit of history that will be read with interest by all devotees of this sport, and that means three-fourths of the readers of The Journal.

Probably not many residents of this city are aware of the fact that the now popular sport of fifty-mile relay races, ten men to the team, originated in this city.

H. B. Van Etten, who is still identified with the Carson City Wheelmen, chanced to visit Denver during the early part of 1896 and while there saw a 100-mile race. It gave him an idea which resulted in the modern 50-mile relay. Immediately upon his return to this city he organized a club of ten men and they quietly went to training. After they believed they were in trim to make new records, they wrote a challenge to Reno to come over and get defeated. The Reno Wheelmen were not then organized and those who followed the bicycle did not understand what was expected of them. So Van Etten took a trip over to the Riverside burg and explained his game. Charley Becker acted for the Reno boys and soon the match was made, and the first race of the kind came off on the Carson track in August of 1896.

It was a great day in Carson City. The Reno boys were met at the train by the band were banqueted, and the whole affair made a gala day. Several carloads came over from Reno to see what was up and the day and track were all that could be asked.

Arthur Meyers started the race for Carson City and Rube Kelly finished with Ed Petersen, Louis Springmeyer, Henry Burlington, H. B. Van Etten and Howard Mulcahy also on the score card. "Tuffy" White and Hawcroft were prominent members of the visiting team. Early in the proceedings Carson got a gap and tried to lengthen it with varying success until the last relay which Rube Kelly finished five-eighths of a mile ahead of the Riverside. The best time made in the race was by a Carson City rider, and he scorched the track by making his five miles in 14 04.

He was so far ahead of all other time made on that occasion that he was at once proclaimed the cycling marvel of the amateur class. Mr. Van Etten, who invented the game, covered his five miles in the very respectable and conservative time of 17 05 and yet he was able to open a gap by this marvelous burst of speed which was about average time made. Compare that with Jack Wing's exhibition ride of 11 28, standing start, last season, and it will be observed that the "world do move."

While the Renoites took their defeat good naturedly they were nevertheless chagrined and immediately set about preparing themselves for such revenge as Carson City would not soon forget. They banded themselves together into a club and there was started the Reno Wheelmen, now known the world over where an interest is taken in bicycle racing.

They worked hard and finally challenged Carson City to a return match. They got it, and incidentally they got the race by about a half-mile. In fact, they opened a gap on the very first relay. There was no jockeying in those days no sprints and no fancy jumps—nothing but good hard riding, and the Reno rider simply left his Carson City opponent right from the tape. And why shouldn't he? He made the remarkable time of 15 30 and Carson City did not forgive Reno for putting their best man first for some seasons.

Ever since that time Carson City has regularly, once a season, endeavored to best Reno at the game she taught her, but thus far without success, and Reno went to the top and grasped the championship. The fact that the Carson City team is once again on the upgrade and intends to ultimately win the championship, perhaps makes this little bit of history not entirely uninteresting at this time. Perhaps Carson City, to some slight extent, deserves success for having given to the world one of the cleanest and best sports open to the youth of the country.

DR. M. F. McTAGGART

Dr. M. F. McTaggart formerly of San Francisco, recently of Val-

cate at Reno, to which place he was called recently on professional business. The Sagebrush City made such a favorable impression on the doctor that he has about concluded to remain there. The family will remove later. During his residence in this city Dr. McTaggart has made many friends by his courteous way and attention to his professional duties. As a gentleman and physician he is held in the highest esteem. At present he is a member of the board of health of this city. He is also a member of the California State medical society.

The Examiner of San Francisco has the following to say:

"One of Napa's leading physicians, Dr. M. F. McTaggart, has removed to Grass Valley. Dr. McTaggart was formerly a resident of San Francisco, but has for a few years held a large and successful practice in Napa, including not only people of the town and surrounding country, but patients from San Francisco as well. Dr. McTaggart is a skilled surgeon, and recently performed one of the most critical and difficult operations in surgery. It consisted of the successful removal of a portion of the spine to relieve pressure on the spinal cord in a case where the vertebrae had been crushed. He was assisted by Dr. Officer of Grass Valley and Dr. Finney of San Francisco."

ROOSEVELT'S DUPLICITY

PRESIDENT ROOSEVELT started on his presidential career with the reputation of being the champion trusts buster of his age and generation. He promised great things but has done nothing. He found that in the fulfillment of his professions he would antagonize and array against him, for the Republican nomination, the men who furnish the sinews of war in presidential campaigns and who control the party and its policy in all matters that concern the monopolistic element, whether represented by trusts or the financial combines of Wall Street. His experience and record is the same upon the labor question. He posed, or attempted to pose, as the great friend of the laboring men and made a whole lot of cheap capital by bringing about the arbitration in the coal miners' matter. He soon found, however, that he had not pleased the powerful coal barons and their railroad cohorts, partners and associates, and now he is attempting to 'hedge' as he did upon the trust question. His action in connection with the removal of William A. Miller from the position of assistant foreman in the government printing office is a most crushing blow to labor unions in government departments according to the opinion of the labor leaders of the country. In fact, unionism has been dealt a terrible blow and received a direct insult at the hands of President Roosevelt. The only department in the government service has been the government printing office in which labor has been able to maintain its unions. It has been an unwritten law for years, between the typographical union and the public printer, that the latter would not continue in his employment any man objectionable to the union or any man who had been expelled or suspended from any one of these organizations. The labor unions have been in perfect accord with the public printer and their effectiveness has been to enable them to keep objectionable men out of the public printing office. But now comes President Roosevelt and absolutely, in his attitude is to be maintained, kills the principles of unionism. The president says in his letter from Oyster Bay reinstating the discharged assistant foreman, "but no rules or resolutions of that union can be permitted to override the laws of the United States, which it is my sworn duty to enforce. While this is a high sounding sentence, it nevertheless is an implied intimation that the union is an unAmerican and lawless institution inimical to good government and an institution that should be crushed out by the strong hand of the general government. The words are capable of no other construction and are so interpreted by the members of the unions connected with the public printing department. It is evident that President Roosevelt has neither the courage or honesty of his convictions. He is a timmer and a political imposter and fraud. His attempts to carry water on both shoulders upon the trust and labor questions have proven most dismal failure, and it may be safely predicted, that if nominated at all, it will not be with the enthusiasm which would have prevailed, if the convention had been held six months ago. The rapid waning of his popularity is not surprising when considered in connection with his vacillating course upon the two great and important questions of the times.

PERSECUTION NOT PROSECUTION

WE can hardly credit the report that suit is to be brought by the government against J. W. Adams and his securities for the shortage in the Carson mint, which was discovered during Adams' term as superintendent. The stealing of bullion that caused the shortage was committed prior to Governor Adams' incumbency, and moreover, it did not occur in his department. Two men have served sentences in the penitentiary for the bullion thefts, and suit was commenced years ago against the suitors of the deceased melter and refiner, in whose department and under whose administration the thefts were committed, which suit we believe has been dismissed. At least it was never prosecuted to conclusion. It seems incredible that at this late day suit should be brought against the former superintendent who had no more to do with the shortage or was responsible for it than the man in the moon. It looks to us as though the suit, if such should be brought, would be for the purpose of annoying and persecuting a Democratic appointee for the discovery and exposure of stealings committed during the term of his Republican predecessors. The writer of this was melter and refiner of the mint during the term preceding the bullion thefts and at its close turned over to the government several thousand dollars worth of gold and silver bullion in excess of the legal allowance for unavoidable loss in wastage etc. If Jewett Adams is to be prosecuted for the discovery of Republican thefts, this scribe will tremble in his stogies for fear of similar treatment for not following the Republican rule of bringing the wastage account up to at least a few ounces of the legal allowance made to his department.

ACQUIESCENT

CONGRESSMAN Maynard of Virginia is reported to have spoken as follows: "Name any man you choose you believe the party has a good chance to win."

cratic candidates for the presidency, and she will have somewhat to say about it this time. The man nominated must be a Democrat in fact as well as in name. We do not have any desire to buy a pig in a poke. That sometimes turns out well, but generally is a most unsatisfactory performance. There are abundant good Democrats, real Democrats, Democrats from principle, from whom to choose and one of these must be chosen. Of course the mass of politicians would vote for any sort of candidate provided he is labeled "Democratic," but the "one gallus" Democrats, who want no office and expect none, demand a genuine Democrat. Missouri Democrats must be shown the real article."

POPULATION OF CHINA

DURING the European trouble with China no little divergence of opinion was expressed as to the population of the great Asiatic Empire. A new census of China has been completed and the returns indicate that the population has been rather under than over estimated. At least it shows the enormous total population of 426,447,000, according to the cable reports. The number of inhabitants in Manchuria, Mongolia, Tibet and Turkestan was only estimated. Thus more than one fourth of the world are contained within the Chinese Empire. Even the British Empire, with its vast possessions on every continent has 30,000,000 less inhabitants than China. In 1890 E. G. Ravenstein estimated the inhabitants of the earth at 1,487,900,000. Since then the number has increased at least 62,100,000, making a present total of 1,550,000.

PROGRESS OF AN IMPORTANT INDUSTRY IN NEVADA.

New Discoveries, Development Work, Shipment and Reduction of Ore Reported From Every County.

The transformer at the Morgan Mill burned out yesterday.

Hale & Norcross stock has been assessed 10 cents per share.

The mine and mill at Dean, Lander county, were shut down last Sunday.

Work will be resumed in the North Rapidan mine at Como next Monday, with a full force of miners.

The New Century mine, one of the Old Imperial group, is being opened up in minerlike style and more men are added to the payroll as fast as required.

The first of the week Fritz Elges disposed of all his land along the Carson river to the Nevada Placer and Gold Mining Company. The tract included 428 acres and the price paid was \$20,000.—Report.

A Davis drill plant is to be used in prospecting for placer gold at the big gravel wash on the plain four miles east of the foot of Six-mile Canyon, where fair gold prospects have been found by panning.—Report.

At the Star mine developments are being pushed west with power drills in the 700 foot level with satisfactory results. They are 200 feet beyond the upraise to the sixth level, which produced ore going thousands of ounces in silver.

After a thorough test of several tons of ore taken from the dump, without regard to quality, Mr. Carman has satisfied himself of the value of the mine, and will leave for the east next week for the purpose of raising funds to erect a 20-stamp mill on the property. This mine is a valuable property and will surely enrich the owner.—Record.

Drifting from the 300 and 500 levels of the Ruth mine is making good progress from the lower level, but on the upper one the drifts have now reached a distance of 300 feet from the shaft and bad air interfered with the work. However, connections between the two levels will soon be made and this troublesome factor removed, and once again developments will progress with lightning rapidity.—Ely News.

Reports from Los Angeles say that the conference held between John C. Williams, vice president of the Western Federation of Miners and the Desert Mine Operators' association, was not productive of results and that Mr. Williams left for his home in Grass Valley. This means that the struggle will be prolonged, as both the strikers and the operators are determined to fight it out to a finish.—Lincoln County Searchlight.

Messrs. Price and Curry, who are developing some promising properties in the Mammoth group of claims near Carter's Station, were in town Monday, on their return from Reno. They took over some supplies of ore from one of their claims, which assayed fully up to their expectation. It is the intention of the company to put on quite a force of men, and will have considerable ore ready for the smelter, which is expected to start up within the next thirty days.—Record.

The New York & Nevada Copper Company at Copper Flat, through their superintendent, C. L. Shaw, are pushing the developments of both drifts from the 168-foot level of the No. 2 shaft, which now has exposed 150 feet of 7 per cent chalcocite ore. Preparations are also being made for enlarging and retimbering the No. 1 two-compartment shaft from the 400 level to the surface, work upon which will begin in a very short time.—White Pine News.

At Pilot Knob the Giroux Consolidated Company has a force of men at work cutting out for a station on the 4th-foot level, and are making preparations for the commencement of sinking the Morris shaft below the 200 level, for the purpose of still further developing the large body of copper sulphide ore found in that property, which coupled with the showing in the Giroux shaft on the 350-foot level, makes their company the possessor of one of the biggest copper mines in the state.

At the McKinley company's Saxton drifting from both the 300 and 500 foot levels is making rapid headway into new territory with indications favoring the existence of large copper ore bodies in the immediate future. In the Jupiter shaft the company is experiencing some difficulty with bad air in the drift from the 200-foot level of the shaft. Some very good gold and copper ore has been taken out here in the past two weeks and still the vein continues in the same character of ore.

Last Sunday evening a Sheridan Indian loaded up with fighting firewater and unprovokedly initiated a carving contest with J. W. Bennett at the Ben Palmer ranch. Mr. Injun came out second best, though Bennett received a slight cut which, but for his dexterity in warding off, might have terminated his earthly usefulness. There is something radically wrong in the execution of the law, "no whiskey to Indians."—Record.

Dysentery Cured Without the Aid of A Doctor.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Finer, a well-known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by S. J. Hodgkinson, Druggist.

A Lone Woman

Every young woman should have a knowledge of how business is done. She may be left alone in the world and must know how to earn money, if she has none, or how to keep it, if she has a sufficiency. There are plenty of people waiting for an opportunity to rob lone, unsophisticated women. You should fortify your daughter against such contingencies. Give her a course at Atkinson's Nevada Business Institute.

Amend the Appeal

In the matter of the application of W. S. Wallace for a writ of review and a stay of proceedings in the United States Court the Mayor and City Council of Reno, demurred to the petition. Yesterday the costs were taxed against petitioner. This was the opinion of Judge Talbot, Judges Belknap and Fitzgerald concurred.
